

# Fiber Reinforced White Topping Case Study

**Adfil®Strux 90/40**

@4.5-LBS/YD3

**CONTRACTOR:**

F.H. Paschen

**CUSTOMER:**

Smith RMX

**OWNER:**

Indiana Department of Transportation

**PROJECT:**

Fiber Reinforced White Topping over Asphalt Roadway

**VOLUME:**

26,000 yd3

## Project Highlights

- The project was specified as a fiber reinforced overlay
- Chryso Technical Service Representative (TSR) leveraged the relationship with Smith to ensure use of **Adfil®Strux 90/40** over competitor products
- Smith RMX worked with the TSR and Engineering Services Group (ESG) team member to determine dosage rate meet requirements of Indiana's Department of Transportation's specification
- Team Effort: Customer, TSR, and ESG worked together to identify the opportunity and provide the necessary documentation for Indiana's Department of Transportation
- Customer happy with the aesthetics and ease of finish
